## save the world, one glass at a time

Hybrid vehicles, organic vegetables. Now there's another "green" choice for sophisticated people who want to save the world. French Rabbit has introduced its wine in environmentally friendly packaging. Chardonnay, Pinot Noir, Cabernet Sauvignon and Merlot come in a 1-liter ePod, a label-free, octagonal container that weighs less to help save transporting fuel and also crushes to reduce package waste by 90 percent compared with bottles.
