ER STAGE

## POP PRODUCT

The design landscape takes on new forms as these products add roses to rugs, stamp maps on shoes, and grow gardens in eggs

### 5 BUNNY BOUQUET

Saving the environment never tasted so good. French Rabbit, a new line of wines available in Pinot Noir, Chardonnay, Cabernet Sauvignon and Merlot, uses innovative Tetra Prisma containers that reduce packaging waste by nearly 90 percent. Their collapsible, octagonal design allows ozone-friendly transportation to recycling centers, requiring only one truck to the 25 needed to move the equivalent number of bottles. *Frenchrabbit.com*
