#### DELOACH VINEYARDS' 30TH ANNIVERSARY CELEBRATION CONTINUES

Russian River Valley's DeLoach Vineyards continues to unveil new changes as part of its year-long 30th anniversary celebration. This summer, the winery debuted a renovated tasting room and a brand new website. Designed by wine country architect **Howard Backen**, the renovated DeLoach Vineyards tasting room opened Memorial Day weekend with a party for neighbors, growers and long-time winery friends. The space is "elegant but has a comfortable farmhouse ambiance that reflects the winery's roots in the Russian River Valley," said a company statement. Culinary director **Cyndicy Coudray** is on hand to create freshly baked breads. The new tasting room also offers a special flight of DeLoach's OFS line paired with artisanal cheeses and gourmet chocolates, and all winery tours now include small-lot Pinot Noir barrel tastings.

The company also announced a new website, [www.deloachvineyards.com](http://www.deloachvineyards.com). The new site is a resource for visitors, wine club members and members of the trade and media. It offers wine notes, images and updated information about upcoming events at the winery. The site also includes information on winemaking at DeLoach Vineyards, including documents about the winery's pursuit of biodynamics, its use of open-top fermentors and more. The finale to this landmark year will include an anniversary celebration hosted at the winery and a special 30th Anniversary Cuveé, which will be released in very limited quantities later this year by winemaker **Greg La Follette**.
